1.0 Introduction

The terms of reference for the AIA Qualifications Committee describes its purpose, scope and authority.

The terms of reference provide clear and specific information on how the committee is organised, what the committee is created to achieve, its membership and meeting arrangements.

Like AIA professional members, Committee members must act in the public interest using their professional judgement and skills to build trust in the Association and the profession more widely.

AIA committees are underpinned by the following key principles:

- **Selflessness** – members should take decisions in terms of the public interest and not in order to gain financial or other material benefits for themselves, their families or friends.
- **Integrity** – members should not place themselves under any financial or other obligation to outside individuals or organisations that might, or might be perceived to, influence them in the performance of their official duties.
- **Objectivity** – in carrying out the Association’s business, including awarding contracts and recommending individuals for rewards and benefits, members should make choices on merit.
- **Accountability** – members are accountable for their decisions and actions to the Association’s membership and the wider public and must be submitted to appropriate scrutiny.
- **Openness** – members should be as open as possible about the decisions and actions that are taken. Members should give reasons for their decisions and restrict information only when the wider public interest clearly demands.
- **Honesty** – members have a duty to declare any private interests relating to their appointments and to take steps to resolve any conflicts arising in a way that protects the public interest.
- **Leadership** – members should promote and support these principles by leadership and example.
